Subject: RE: SPA

Hi Dennis – yes, we want to submit the package by October 13, 2018. Hopefully we have the new Regulation approved by May or June. Can you forward me the previous email you refers to? With all the probems we have with the electricity and the servers some of the emails were lost.
Thanks.

Wilmarie – do you have a target date for finalization of the UST regulations? What will be the effective dates for implementation (see my previous email on this). Do you anticipate submittal of EQB's SPA package by October 13, 2018?

Thanks
